

Today is Friday, February 9, 2018

Majora Carter is the 2005 MacArthur genius who in 2001 started Sustainable South Bronx, an organization dedicated to environmentalism and the creation of Bronx Environmental Stewardship Training, a highly successful green jobs training and placement program. In 2008 she formed the Majora Carter Group [Facebook Page], LLC and serves as its president. In her current capacity, aside from being a highly sought speaker, she now advises companies, cities, and universities on environmental and business issues.

News You Can Use...

Candy Grams will be sold during lunch throughout this week.

Have a sweet surprise delivered to the middle school student of your choice during 6th period on Valentine's Day. Candy Grams with:

Tootsie Pops = \$1.00

Hershey Kisses = \$.50

Rice Krispies Treat = \$2.00

Sweeten someone's Valentine's Day by purchasing a Candy Gram at lunch time any day this week!

Thumbs are here for student who visited Dr. Burn on E-STEM Career day. See Ms. Hunstiger at lunch to pick up.

Reminder: Please put your phones away BEFORE you come upstairs. Electronics are great before school, but headphones and all devices need to be tucked away before you come up to the third floor. Thank you!

Something to Ponder

Craig Watkins/ Innocence Project /Human Rights Watch. One of the major issues civil rights issues of our time is the incarceration of disproportionate numbers of Black and Latino men (over 1 million of the current 2 million plus populating America's prisons). The Innocence Project, co-founded by Attorney Peter Neufeld and Attorney Barry Scheck of "Trial of the Century Fame," has been at the forefront of demanding DNA evidence be used to exonerate those wrongfully imprisoned.
